At Lightbox Photo Club we believe in teaching children to see the world differently and to inspire the creativity and confidence they gain from learning a new skill. The club is lead by a professional photographer and each child will be loaned a shiny Nikon W150 camera and a host of materials to use each week. Topics covered will include focussing, composition, lighting, shutter speed and most importantly will be lots of fun. At the end of term each child will receive a personal digital gallery showcasing their best work to download and be really proud of!
