

Engineers R Us

An engineering club for those that ask “how?” and “why?” about our built environment; bringing STEM subjects to life.

Engineers R Us is founded and run by a Chartered Civil Engineer with more than 15 years' consultancy experience of designing buildings and bridges across the globe. In my sessions I will share my enthusiasm and experiences to bring STEM subjects to life and demonstrate their value in the engineering of the world around us. My sessions will look at different engineering sectors and largely focus on the built environment, exploring a wide range of themes using fun hands-on practical challenges to aid discovery, stimulate creativity and develop problem solving resilience.

Venue: St Lawrence C of E (Aided) Junior School

Days, times & dates: Spring term 2020

Sessions on **Tuesday's** afterschool from **1515 to 1615** starting Jan 7, 14, 21, 28, Feb 4, 11, 25, March 3, 10, 17, 24, 31, (12 sessions)

Cost:

12 sessions at £102 for the term.

How to book:

Please email me at engineersrus2018@yahoo.com with the following information:

- 1) Name of your School
- 2) Your child's full name and year group
- 3) Your contact details

I look forward to seeing you soon!
